Selection as outstanding reviewer for 2016-2017
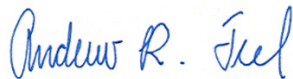

Dear Dr. Su,

Every year Automatica identifies around 30 individuals, from a pool of about 2000 reviewers, as *outstanding reviewers*. The selection is done following a nomination process that involves the Editors and Associate Editors of Automatica and is based on outstanding performance an individual has shown as a reviewer, consistently during the indicated period.

It gives me a great pleasure to inform you that you have been selected as an outstanding reviewer for Automatica for the year 2017, covering the review period July 1, 2016 to June 30, 2017. You have been identified because of the thorough, competent and timely reviews you have prepared at the request of one or several Automatica Associate Editors. The editorial process depends heavily on the quality and timeliness of the reviews collected, and I am indeed grateful to you for contributing to this process in the most professional and responsible way.

In the period indicated above, about 2500 individuals have prepared reviews for Automatica, whose names have been published in the January 2018 issue of the journal. Only 34 of them are receiving a letter like this, recognizing their outstanding contributions to the review process. The Automatica Editorial Board decided not to announce the list of outstanding reviewers publicly. You are free, however, to show this letter to anyone you wish.

I trust that we can call upon you again for reviews in the future, and I hope that you will choose Automatica as a medium of publication for your own papers.

Sincerely,

Andrew R. Teel
Editor-in-Chief, Automatica
